

Quality Assurance Manager - Croatia

Are you talented, enthusiastic and eager to work in a veterinary pharmaceutical company then we are looking for you!

Keywords:

Industry: animal health, quality system / **Segment:** R&D / **Location:** Zagreb (Rakov potok) / **Contract:** Permanent contract, Full Time

About the role

As an Quality Assurance Manager, you will be responsible for establishing and maintaining quality standard in the Test facility and Vaccines development lab. You will actively contribute to maintaining of Good Laboratory Practice (GLP) Quality System according to OECD GLP guidances and regulations. You will participate in setting up quality system in the newly established entity in accordance with principles of Good Manufacturing Practice. You will have the opportunity to work with and learn from highly qualified and experienced employees.

You will be part of a multidisciplinary team and work and interact closely with colleagues to ensure smooth operations and successful project outcomes in high quality standards.

Main responsibilities

- Develop and maintain the **Quality Assurance Program (QAP)**
- Monitor compliance with GLP standards and report deviations.
- Verify study plans, amendments, and reports.
- Conduct audits (study, facility, and process-based) and provide QA statements.
- Lead QA activities in multi-site studies.
- Participate in GLP inspections and provide support in resolving compliance issues.
- QA supervision of Document management system, personnel training, equipment qualification, deviations and out-of-specification results.

About you

You set high standards for your own performance, are detail-oriented, and have good organizational skills. You are a team player, able to maintain constructive teamwork, and you actively seek input from and provide help to others.

Your profile

- **Education:** Master of (Applied) Science degree (or equivalent) in biotechnology, molecular biology or engineering or other technical/scientific area, Doctor of veterinary medicine or similar
- **Skills:**
 - Knowledge of GxP standards.
 - Experience in GxP quality inspections.
 - Strong attention to detail, documentation accuracy, and problem-solving.
 - Familiarity with analytical methodologies and risk assessment tools.
 - Good interpersonal and communication skills.
 - excellent command of the English language in word and writing.
- Experience in the OECD GLP audits is an advantage

- Good computer skills and knowledge of computerized system validation and equipment qualification are desirable

Organisation

- This position reports to the Director of Vaxxinova Zagreb
- Location: Vaxxinova Zagreb, located in Rakov potok, Croatia

What does Vaxxinova offer you?

Working at Vaxxinova means working in an open and professional environment where we value respect, open communication, and integrity.

You will work in a pleasant team of professionals in an informal, open and inclusive international environment where we like to work hard but also have fun.

Besides a good salary, Vaxxinova has excellent fringe benefits, flexible working hours, and we foster continuous development and learning.

About Vaxxinova

Vaxxinova develops, produces and markets a wide range of innovative licensed and autogenous vaccines to protect livestock and fish against disease. We create high quality solutions to improve animal health and to support the business of our customers. We believe that innovation and excellence in research are essential to produce premium products that match the current and future requirements in animal health.

The Vaxxinova Group, headquartered in Nijmegen, the Netherlands, was officially named and founded in 2010 but can rely on expertise and presence originating from the 1960's. Our current network comprises production, research & development, sales and diagnostic facilities in 12 countries: Brazil, Chile, Croatia, Germany, Italy, Japan, Jordan, Norway, the Netherlands, South Africa, Thailand and the USA. Vaxxinova is active in more than 75 countries.

At our R&D site in Zagreb, Croatia, a dedicated team focuses on research, development and regulatory affairs for a range of poultry vaccines.

Vaxxinova belongs to the EW Group, a German-based family-owned company, specialized in Life Sciences; genetics, diagnostics and healthcare sectors.

The EW Group is highly committed to R&D and active in more than 100 countries.

Our hiring process.

After your application, we will screen your CV and if positive- you will have interviews with

- Director Vaxxinova Zagreb
- Animal Facility Manager
- Associate Director Vaccines
- HR Director

If you are passionate about research and development in the field of vaccines and a robust quality management system and eager to contribute to a forward-thinking company, we would love to hear from you!
